Perception and Psychophysics, 69(7), 1084–1892

A functional MRI study of happy and sad affective states induced by classical music
Human Brain Mapping, 28(11), 1150–1162

for language acquisition
Cognition [E–Publication]
The effect of group music therapy on mood, speech, and singing in individuals with Parkinson’s disease: A feasibility study.
Journal of Music Therapy, 49(3), 278-302

Hayden, T. (2012)
The effect of choral singing on individuals with Parkinson’s disease as measured by blood pressure and oxygen saturation
Electronic Thesis: The Florida State University

The use of rhythmic auditory stimulation for gait disturbance in patients with neurologic disorders
Music Therapy Perspectives, 32(1), 35-39

The effect of a music therapy voice protocol on speech intelligibility and mood changes of individuals diagnosed with Parkinson’s disease
Electronic Dissertation: The Florida State University
The use of rhythmic auditory stimulation for gait disturbance in patients with neurologic Disorders
Music Therapy Perspectives, 32(1), 35-39

Rhythmic auditory stimulation improves gait more than NDT/Bobath training in near-ambulatory patients early post stroke: a single-blind, randomized trial
Neurorehabilitation and Neural Repair 21, 5, 45—459

From singing to speaking: shy singing may lead to recovery of expressive language function in patients with Broca’s aphasia
Music perception 25, 4, 315–323

Tamplin, J. (2008)
A pilot study into the effect of vocal exercises and singing on dysarthric speech
NeuroRehabilitation
Gilbertson, S, and Aldridge, D (2008)
Music therapy and traumatic brain injury: a light on a dark night
Philadelphia, PA: Jessica Kingsley Publishers

Jeong, E. and Lesiuk, T. L. (2011)
development and preliminary evaluation of a music-based attention assessment for
patients with traumatic brain injury
Journal of Music Therapy, 48(4), 551-572

Taylor, D (2008)
Examining a brain influence model for music therapy in neurology
Prepared for presentation at the music therapy neurology network symposium music
therapy in neurology: towards a shared agenda
July 21, 2008

Thaut, M, Gardiner, J, Holmberg, D, and Horwitz, J (2009)
Neurologic music therapy improves executive function and emotional adjustment in
traumatic brain injury rehabilitation
